Federal and State Regulations

Red or Yellow colored liners being used to transport hazardous waste off-site using public highways must meet federal and state regulations required for the transportation of regulated medical waste. The State Department of Transportation (DOT) requires that biohazard bags must meet the impact resistance of 165g (ASTM D1709) and tear resistance of 480g (ASTM 1922). Bags meeting DOT standards are noted with + on the Healthcare Liner List on the next page.

Liners that do not meet federal and state regulations:

These liners are offered for the purpose of on-site disposal and are not intended for the transportation of hazardous waste off-site.
