

# Recycled Content Liners

BY HERITAGE®

As a leader in packaging choice, innovation and sustainability, Novolex has utilized post-consumer recycled (PCR) content and post-industrial recycled (PIR) content in bags and film since 2006. Many can liners made by Heritage use recycled plastic intended for the waste stream to create premium, quality products that are subject to and pass the same quality testing and standards as bags made with 100% virgin material.

Reclaim - Recycle - Reuse

## Eco Blend® Max

### PERFORMANCE FEATURES

- Meets qualifications to be SCS Global Services recycled content certified (Registration # SCSRC- 05603) ensuring authenticity and contribution to sustainable practices
- Complies with EPA's Comprehensive Procurement Guidelines, emphasizing commitment to responsible waste management
- Adheres to California state regulatory standards ensuring compatibility with plastic trash bag regulations
- Fulfills new state minimums for Washington and New Jersey PCR inclusion requirements

Based on data from the ecoinvent life cycle inventory, Eco Blend Max can liners reduce carbon emissions by 18% when compared to the same size can liner made from virgin resin.

## LEEDing Edge™

### PERFORMANCE FEATURES

- Contains a minimum of 10% post consumer recycled (PCR) content
- Meets EPA comprehensive procurement guidelines for trash can liners
- Contains natural, mineral additives

## X-liner™

### PERFORMANCE FEATURES

- Heritage X-Liners are made from post-industrial recycled content
- Available in popular sizes and gauges to meet a wide range of customer needs
