

Packaging for a better future through choice, innovation, and sustainability

Novolex offers a broad product platform with one of the most diverse substrate offerings in the packaging industry, built on highly complementary capabilities across its business. Our asset base includes an extensive manufacturing footprint and an expansive distribution network, enhancing our ability to serve customers ranging from large, blue-chip brands to small businesses that serve millions of consumers every day.

We are a leading manufacturer of food, beverage and specialty packaging

- Comprehensive product portfolio of packaging solutions for foodservice, grocery, retail, industrial, and beverage markets
- Manufacturing and sourcing expertise in a diverse range of substrates including resin, paper, molded fiber, and aluminum
- Extensive stock and customized solutions with 120 product categories, 250 brands, and more than 39,000 SKUs
- Global manufacturing footprint and distribution network for strategic sourcing initiatives
- Innovation-driven R&D facilities focused on next-generation packaging solutions, engineering, and manufacturing operations
- Committed to sustainability through the use of renewable or recycled materials; development of products that are recyclable, compostable, or reusable; and reduction of GHG emissions from operations
