

Greenware[®] Hinged Lid Containers

Molded Fiber

Made from renewable, compostable fiber, Greenware[®] PFAS-Free Fiber Blend Containers offer a sustainable packaging solution without sacrificing strength, versatility, or temperature performance.

Renewable

Made from renewable resources with no added PFAS.

Commercially Compostable

These products are BPI-certified to be commercially compostable in commercial facilities only, which may not exist in all areas. Not suitable for home composting.

Durable by Design

No bending, no breaking, or cut through—these containers hold strong, even for generous portions.

Heat & Cold Tolerant

Safe for heat lamps, microwave reheating, and freezer storage.

Variety of Sizes

Available in multiple sizes and compartments to fit your operation's needs.

Leak-Resistant

Thick fiber material helps prevent liquids from soaking through, keeping surfaces clean and food secure.

Greenware[®] Hinged Lid Containers

Molded Fiber

These guidelines are supplied to assist you in determining the proper use of Novolex products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
