

Greenware® Tinted Lids

PLA

Our Greenware® green-tinted PLA lids are designed to meet Washington and Colorado labeling requirements. Made from plant-based PLA, these BPI-Certified compostable* lids are ideal for cold beverage applications.

Legislation Ready

Designed to comply with Washington and Colorado regulations, offering peace of mind without compromising style or function.

Compostable Design

BPI-certified compostable and crafted from PLA, a material made from annually renewable plants like corn.

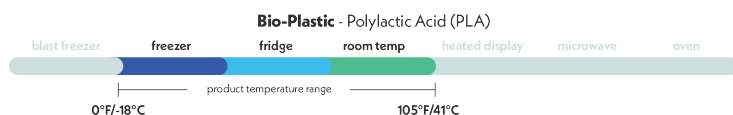

Ideal for Ice Cold Drinks

Dependable for use with cold beverages and iced drink applications up to 105°F/41°C.

These guidelines are supplied to assist you in determining the proper use of Novolex products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
