Frost-Flex™ PRO Reusable Cups and Lids

Frost-Flex™ PRO resusable cups deliver superior cold and hot drink performance while streamlining operations through integrated insulation. Designed for durability and repeated use, they withstand a minimum of 500 commercial dishwasher wash cycles and are compatible with deposit, collection, reuse, and rewashing programs supporting circular service models while delivering a premium guest experience.

July 2026

Designed for Reuse, Built to Perform.

Frost-Flex™ PRO Cups combine high-volume reusability with premium beverage performance—helping venues reduce waste and long-term costs while delivering a better drinking experience, streamlining operations, and supporting a more sustainable, efficient service model.

Elevated Beverage Experience

Keep every beverage at its best. Integrated insulation helps hot drinks stay hotter and cold drinks stay colder longer, delivering the premium taste and quality guests expect with every sip.

Reusable & Recyclable*

Designed for repeat use to lower costs, reduce waste, compatible with deposit, reuse, and rewashing programs, with recyclability at end-of-life—supporting a practical, circular solution at scale.

Let Our Cups Be Your Canvas

Bring your brand to life with custom printing using Spectrum™ or Envisions™ technologies, delivering vibrant, high-quality graphics that leave a lasting impression.

Universal Lid Convenience

Choose from two 90mm injection-molded sip lids, available in black or white, designed to fit the Frost-Flex™ PRO lineup.

Simplified Operations

Integrated insulation eliminates the need for sleeves or double-wall cups—simplifying inventory, reducing SKUs, and improving operational efficiency.

Built to Last

Engineered for demanding commercial environments, Frost-Flex™ PRO cups are independently tested to withstand a minimum of 500 commercial dishwasher cycles, delivering reliable performance use after use.

*Recyclable - check locally, as they may not be recyclable in your area.

These guidelines are supplied to assist you in determining the proper use of Novolex products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
