Recycleware RDPP Protein Trays

Reduced-density polypropylene (RDPP) protein trays are the sustainable solution for fresh meat, seafood and produce packaging.

Recyclable*

Recognized by the Association of Plastic Recyclers (APR) as meeting the highest criteria in the APR Design® Guide for Plastics Recyclability.

**Check locally, may not be recyclable in your area*

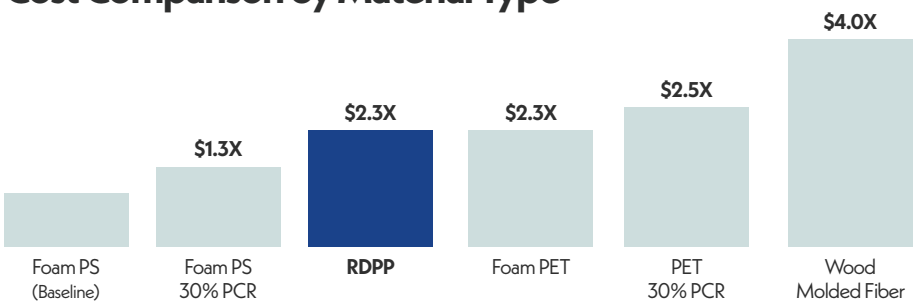

Processor Grade

Trays are designed to run on existing high-speed processor lines with the ability to be overwrapped, vacuum skin packed and lid sealed

Variety Available

RDPP trays are available in many standard sizes, both pre-padded or without absorbent pads. Custom sizes are also an option.

Cost Comparison by Material Type

Please note: Cost of recycled PCR foam is dependent on the % claimed; current assumption shown based on 30% input

Strong, durable, recyclable*

to meet your customer needs

RDPP protein trays are "drop-in ready" — they run well on existing overwrap equipment.

These guidelines are supplied to assist you in determining the proper use of Novolex products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
