Security Bags

VERSATILE SOLUTIONS FOR DIVERSE MARKETS

Our security bags are trusted across multiple industries:

- Banking
- Retail
- Cash in transit
- Law Enforcement
- Pharmaceutical
- E-Commerce

WHY CHOOSE SHIELDS?

- **Tamper Detection:** STAT technology provides clear, immediate evidence of tampering.
- **Strength & Durability:** Multi-layer films ensure your contents are secure during transit.
- **Versatile Applications:** Ideal for banking, retail, law enforcement, pharmaceuticals, and more.
- **Convenience:** Simplified tamper indicators.

MATERIALS INFORMATION

- **Design Options:** Single pouch and twin pocket designs.
- **High-Visibility Bar Codes:** 3/4" to 1" tall bar codes and numbers, FED approved, and easily visible under cameras.
- **Variety of Sizes:** Stock sizes range from 8x10 to 19x33, available in clear and white/opaque.
- **Coin Bags:** Multiple sizes with single and dual handle designs for added convenience.

WHY STAT® STANDS OUT

- **Visible Warning in Any Condition:** STAT technology provides clear tamper evidence in both extreme heat and freezing temperatures — without relying on unstable heat-indicating inks or moisture-sensitive patterns
- **Durability Under Stress:** Resistant to pre-VOIDing from routine handling and stress
- **Consistent Security:** Uniform performance across both in-line closures and dual seal STAT closures

Coin Bags

As pioneers in plastic coin bag innovation, Shields revolutionized the industry with the introduction of UltraShield™, a plastic film designed specifically for coin bags. This proprietary three-layer film blend offers maximum durability and performance.

Each coin bag is reinforced with a heat-sealed handle for superior strength, ensuring integrity throughout the transportation cycle. Meeting all Federal Reserve requirements, Shields coin bags are compatible with major coin sorting equipment manufacturers.

Deposit Bags

The Shields STAT® line of deposit bags combines tamper-evidence with an intuitive, in-line VOID tape closure, making them an ideal choice for retailers safeguarding daily cash and check deposits.

Our stock deposit bags feature high-visibility 3/4" barcodes and numbering for superior security and easy readability under surveillance. Custom printing options include barcodes and numbering up to 1" in height.

The Vertical Twin deposit bag streamlines your deposit process, offering a convenient separation of cash and checks for faster processing and reliable post-verification of daily transactions.

Property & Evidence Bags

Shields Security Products includes a premium line of property and evidence Bags, designed specifically for law enforcement. These bags feature the same tamper-evident closures and high-strength film used for securing currency and coin shipments for nearly 30 years.

Each bag is equipped with unique matching numbers and barcodes for seamless chain of custody management. The tamper-evident closures ensure secure storage, preserving the integrity of evidence from crime scene to prosecution. Easy-to-use security closures and write-on blocks facilitate streamlined evidence and property collection.

Currency Bundle Bags

Shields currency bundle bags provide a secure solution for cash packing and handling. Ideal for banks, money centers, and the Federal Reserve, these clear, tear-resistant bags offer durability and ease of use for more efficient cash management.

■ Our Commitment to Sustainability

All Novolex® brands, including Shields, adhere to Sustainable Materials Management (SMM) principles. Our STAT bags can be collected at drop-off locations around the nation, then recycled at our dedicated centers in Indiana and Wisconsin, ensuring end-of-life sustainability.

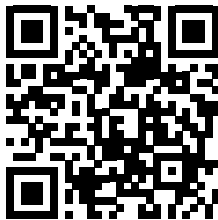

Novolex partners with our customers to meet their sustainability goals by offering choice, innovation and sustainability. Our commitment to reduce greenhouse gas (GHG) emissions 30% per ton of production by 2030 supports customer climate goals. Our broad selection of products made with certified, bio-based and recycled materials can help reduce the environmental footprint of packaging. Many Novolex products are recyclable, compostable or can be reused. We also support customers' ability to quantify emissions, conducting product carbon footprint (PCF) analyses that can inform purchasing decisions that advance sustainable goals.

Choice. Innovation. Sustainability.
