Mineral-Filled Polypropylene Two-Piece Containers

Designed for strength and sustainability, mineral-filled polypropylene (MFFP) containers use 50% less plastic than traditional polypropylene while delivering dependable performance. They are available in a range of sizes and configurations. They help maintain food quality and presentation for hot foods, prepared meals, takeout, and grab-and-go applications.

ClearView® MealMaster®

Performance Features

- Ideal for prepared foods, grab-and-go meals, and takeout
- MFPP bases use 50% less plastic than standard polypropylene containers
- The full-perimeter ZipSeal™ helps prevents messy leaks and spills
- Microwave-safe bases for convenient reheating
- Choose from flat and dome lid options in crystal-clear OPS, including select anti-fog designs that enhance product visibility
- For microwave applications, durable PP lid options are also available for select sizes

Fiber Blend
Two-Piece Containers

Made from renewable fiber materials, fiber blend two-piece containers offer a sustainable packaging solution without compromising performance. Available through our EarthChoice® brand, these containers are BPI certified compostable* and ideal for a wide range of takeout and foodservice applications.

*Commercially compostable only. Facilities may not exist in your area. Not suitable for home composting.

EarthChoice® Rectangle Bowls

Performance Features

- Made from plant fiber, a renewable resource, with no intentionally added PFAS
- Pair with our non-compostable polypropylene lid
- Polypropylene lids are recyclable - check locally may not be recyclable in your area
- Bases are BPI certified compostable. Facilities may not exist in your area. Not suitable for home composting.
