NOVOLEX®

▌Waddington® North America brand profile

▌PREMIUM FOODSERVICE AND FOOD PACKAGING PRODUCTS

Waddington North America (WNA), has seven manufacturing locations located throughout North America and is proud to be a part of Novolex®. Novolex develops and manufactures diverse packaging products for multiple industries in the foodservice, delivery and carryout, food processing and industrial markets that touch nearly every aspect of daily life. The Novolex family of brands provides customers with innovative food and delivery packaging and performance solutions products for their business needs today while investing in research and development to engineer more sustainable choices for the future. With more than 10,000 employee families, Novolex operates manufacturing facilities in North America and Europe, including two world-class plastic film recycling centers.

▌SUSTAINABILITY VISION

The Novolex vision for sustainability is to innovate more sustainable choices for our customers, operate responsibly and invest in our people and communities. We bring this vision to life every day through our ongoing focus on efficiency in our operations, as well as through partnerships with customers, suppliers, communities and others in the industry to develop solutions that reduce the impact our products can have on the environment.

For additional information, please visit www.novolex.com/novolex-sustainability/

▌Table of contents

Novolex sustainability partnerships

Forest Stewardship Council®

The FSC® promotes environmentally appropriate, socially beneficial, and economically viable management of the world's forests. The unique role of the FSC is to bring together people, organizations and businesses to develop consensus-based solutions that promote responsible stewardship of the world's forests.

Sustainable Forestry Initiative®

SFI® promotes sustainable forest management in North America and supporting responsible procurement globally. SFI directs all elements of the SFI program including the SFI forest management, fiber sourcing, and chain-of-custody standards, labeling and marketing. SFI certified products provide assurance that the paper used in these products represent a sound environmental choice with raw materials from certified forest content or certified sourcing. Novolex uses SFI Trademark License Code 01567.

Biodegradable Products Institute

BPI is North America's leading certifier of compostable products and packaging. Their certification program ensures that products and packaging displaying the BPI logo have been independently tested and verified according to scientifically based standards—ASTM D6400 or D6868 standards—for Duro products. The BPI logo also helps industrial composters know that our products will break down as expected and contribute to healthy soil amendment.

Green Circle Certified®

GreenCircle is an internationally recognized third-party certification entity whose thorough evaluation process provides independent verification that sustainability claims related to an organization's products and operations are honest, valid, and verified.

American Society For Testing And Materials (ASTM)

This specification establishes the requirements for labeling of materials and products (including packaging), wherein a biodegradable plastic film or coating is attached (either through lamination or extrusion directly onto the paper) to compostable substrates and the entire product or package is designed to be composted in municipal and industrial aerobic composting facilities. In order to compost satisfactorily, the product must demonstrate each of the three characteristics as follows: (1) proper disintegration during composting; (2) adequate level of inherent biodegradation; and (3) no adverse impacts on the ability of composts to support plant growth.

Sustainability brands

EcoSense™ brand uses less virgin resin while providing superior performance, a strong, grease and cut resistant alternative to polystyrene. EcoSense is Green Circle Certified and FDA compliant.

Novolex®, a leader in packaging choice, innovation and sustainability, is introducing food packaging containers that are both recyclable, where facilities exist, and made with a minimum 10% post-consumer recycled (PCR) content. Look for this logo throughout our catalog.

How2Recycle® and consumer education

As part of our commitment to consumer education, Novolex uses the How2Recycle® and How2Compost™ labels on stock products and works with customers to encourage their use on branded items.

How2Recycle® is a standardized labeling system that clearly communicates recycling instructions to the public. When applicable, it includes instructions on how to properly clean a product before recycling.

Special instructions
Tells consumer how to prepare component for recycling.

Recyclability qualifier
Indicates how the package can be recycled. "Store Drop Off" and "Check Locally" are examples of claims that qualify the level of recycling available for a product.

Packaging type
Identifies the material and packaging type.

Flatten Before Recycling

Recycle if Clean & Dry

Store Drop-off

Material types

Most WNA products can be either single-use (use and throw away) or hand-washed and reused.Our plastic tableware products are recyclable where facilities exist. Recycling facilities may not exist in your area. Please support recycling in your community.

| Material types	Performance features
Polyethylene terephthalate Recycled polyethylene terephthalate PET / PETE / RPET	• High-Gloss finish • Excellent clarity • Lightweight • Resistant to cracking and crushing • Temp range 0°F to 140°F
High density polyethylene HDPE	• Good flexibility • Lightweight • Good impact resistance • Temp range 32°F to 175°F
Low density polyethylene LDPE	• Excellent flexibility • Lightweight • Resistant to cracking • High impact strength • Temp range 0°F to 150°F
Polypropylene PP	• Durable • Strong • Heat resistant / microwave safe • Retains flexibility at low temperatures • Temp range 32°F to 215°F
Polystyrene PS	• Rigid superior strength • Exceptional clarity • Temp range 40°F to 180°F
Acrylonitrile Butadiene Styrene ABS	• Durable • Strong • Heat resistant / microwave safe • Retains flexibility at low temperatures • Temp range 40°F to 185°F

Custom packaging design

As menus and food trends evolve, we want to grow with you. From Concept to Completion®, our engineers and in-house design team work with you to seamlessly develop the product that is right for your application. Therefore, if we do not have a product that fits your needs, we can develop an innovative custom product complete with custom embossing that will result in your distinctive branding success.

Our customization process below shows how we work with you to design the best packaging to meet your needs and satisfy your customers.

Concept to completion® in 6 steps

1 LET'S TALK
We will meet with you to better understand your goals and discover how we can develop a custom product that meets your business needs.

2 LET'S COLLABORATE
Our in-house design team will hand draw some possible solutions, get your input and revise as necessary.

3 LET'S SEE
Working off the sketches, our design team will create a dimensionally accurate digital model.

4 LET'S GET REAL
Using the computer renderings, we'll create a physical model using rapid prototyping technology to provide a real-life example of shape, size and user experience.

5 LET'S GIVE IT A GO
When the initial design is perfected, we'll create functional samples of your product out of the actual materials. At this stage we'll test for things like strength, lid-fit and leak resistance.

6 LET'S WOW
Once approved, we will begin production and deliver a custom package that help you build your brand and satisfy your customers.

Cutlerease®

Cutlerease® innovative dispensing system improves hygiene and reduces the spread of germs by releasing one piece of cutlery at a time.

PERFORMANCE FEATURES

- ☐ Cutlerease® system automatically dispenses one piece of cutlery at a time
- ☐ Handle-first delivery maintains cutlery's sanitary eating area.
- ☐ Take only cutlery that is needed
- ☐ Tape tabs offer sanitary handling of cutlery refill packs and easy pick up
- ☐ Cutlerease® system has no trays or levers; helps prevent transfer of germs and bacteria
- ☐ PP option is made with 20% less plastic than comparable PP cutlery

PP CUTLERY IS IDEAL FOR HOT FOOD APPLICATIONS

Spectrum™ customization

Spectrum™ products are decorated using PMS spot colors, the number of which is dictated by the item chosen.

SPECTRUM™

Classic Color, Great Value

PERFORMANCE FEATURES

- Minimum order quantity: 15,000 pieces for general drinkware, 5,000 pieces for Memorables™ cups
- Lead time to ship from art approval and PO: 6 weeks
- Cost effective option; more efficient for larger order runs
- PMS color matching; up to 8 ink colors

ART REQUIREMENTS

- Vector art with fonts converted to outlines, PMS ink colors called out
- No embedded, linked or placed images
- Acceptable Adobe Illustrator file types are AI, EPS and print-ready PDF

Envisions™ customization

ENVISIONS™

elevate your image

Envisions™ products can be customized with full color photo images or photo quality graphics, as well as line art/graphics with unlimited PMS spot color emulation.

PERFORMANCE FEATURES

- Minimum order quantity: 500 pieces for general drinkware
- Lead time to ship from art approval and PO: 10-15 business days
- Low minimums; lower inventory carrying costs
- Capability of collated designs per case

ART REQUIREMENTS

- High resolution (300 dpi or higher) raster art in JPG, PSD or TIF file formats
- Vector art with fonts converted to outlines, all linked images provided
- Acceptable Adobe Illustrator file types are AI, EPS and print-ready PDF

Memorables™ kids cups

These cups are easy to grip, minimize spills, and provide table entertainment.

PERFORMANCE FEATURES

- Keep them entertained and occupied
- Specifically designed to handwash and reuse
- For sip lid the unique roll tab to prevent spills

TamperFlag™

These rigid containers provide excellent point-of-sale visibility and come with a simple and clear tamper-evident feature that "flags" customers if the container has been opened.

PERFORMANCE FEATURES

- Smooth surface label area for customer-applied labels.
- Containers are stackable in all sizes.
- One piece hinged design reduces multiple SKUs in the stockroom.
- Containers are reclosable for use after opening.

CLOSED **TAMPERED**

TAMPER-EVIDENT FEATURE
An easy-to-see "flag" after opening alerts consumers of tampering.
