## 6 EASY STEPS TO CLEAR A JAM

### STEP 1

Start by sliding the tower partially or fully out of base (do NOT place on side or tip upside down, keep the tower upright).

### STEP 2

Open bottom slide track.

### STEP 3

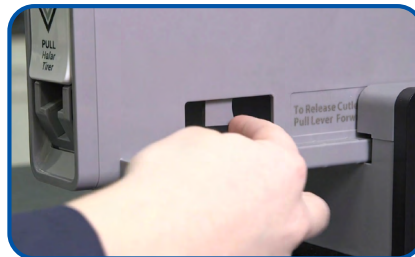

Clear any cutlery inside.

### STEP 4

Snap slide track back into position. You will hear an **AUDIBLE SNAP** once its securely in place.

### STEP 5

Prime **ONLY ONCE** using the trigger. (priming more than once can make it jam again).

### STEP 6

Fully slide back the tower into the base.
