Space-Saving Hardware

Dispenser to be installed under the counter or wherever you need it

The RollMate® bagging system adds to checkout convenience with one at-a-time bag dispensing. The employee simply pinches the top of the bag and pulls. The bag detaches from the roll and is ready to fill with merchandise.

You can mix and match bag sizes and dispensers. With up to 500 bags per roll, employees spend less time restocking and more time serving customers.
