

Sealable Blister Lidding Packaging Solutions

Sealable Blister Lidding Packaging Solutions

SEALABLE BLISTER LIDDING FOR UNIT DOSE PACKAGING

Our capabilities and expertise define the integrity of our blister packaging. International Converter is committed to providing packaging solutions that meet exact customer specifications. Our robust paper-backed foil offers extra protection to unit dose compliance cards and is designed to support packaging stability and provide tamper-evident and moisture resistant features.

We offer a range of heat seal coatings to optimize the performance of your applications.

At International Converter, we are your advocate, dedicated to delivering innovation. That commitment to innovation has resulted in consistent premium performance and significant cost savings opportunities for our customers.

PRIMARY END USE:

Heat Sealable Blister Stock for PVC, HIPS, PS and PETG
